SUMMARY

AIML student with strong interest in Full Stack Web Development and AI-based applications. Skilled in Python, Django, and building web applications with database integration. Interested in developing scalable, user-friendly applications and working with modern web technologies.

SKILLS

- **Programming:** Python, Java
- **Web Development:** HTML, CSS, Django, Flask
- **Databases:** MySQL, MongoDB
- **Tools:** Git, APIs, Postman
- **Concepts:** Data Structures & Algorithms, OOP

WORK EXPERIENCE

Edunet Foundation

Ai Intern

May 2025 - June 2025

- Developed and tested a Flight Price Prediction system using machine learning techniques.
- Performed data preprocessing, model training, and validated results for accuracy.
- Worked with datasets, debugged issues, and improved model performance.
- Documented workflows and ensured reproducibility of results.

PROJECTS

Flight Price Prediction using ML [🔗](#)

- Built a machine learning model to predict airline ticket prices.
- Performed data cleaning, preprocessing, and feature engineering.
- Trained models and evaluated performance (~80–85% accuracy).
- Integrated frontend form with backend model for real-time prediction.
- Handled user input and displayed results dynamically through web interface.

Blood Bank Management System [🔗](#)

- Developed a web application using Django and MySQL.
- Designed and managed database for storing donor and request data.
- Managed CRUD operations for donor and request data.
- Connected frontend UI with backend logic and database.
- Worked with APIs to enable communication between frontend and backend.

EDUCATION

Malla Reddy Engineering College For Women

Bachelor of Technology(AIML) - 8.80

2023 - 2027

ACHIEVEMENTS

- Secured All India Rank 9256 in Naukri Campus Turks 2025 coding challenge.
- Qualified Round 2 in CodeQuest 2026 – National AI Agents Build Challenge.
